

## Hierarchy Cantilever School Chair

Model No: 53214-1-XXXX, 53216-1-XXXX, 53218-1-XXXX,  
53214-5-XXXX, 53216-5-XXXX, 53218-5-XXXX

### SHELL SPECIFICATIONS:

Seat is designed as a single-piece structurally engineered injection-molded shell of reinforced polypropylene. Dual molding in support channels eliminates the need for any external surface support ribs or exposed tubing. Shell construction yields a durable yet flexible shell with a clean and pleasing aesthetic. Patented shell geometry and design yields a comfortable and ergonomic seat surface. Large carrying handle are centered for best weight distribution and ease of use. The shell is offered in all Hierarchy colors.

### FRAME SPECIFICATIONS:

Cantilever frame is constructed of 1" 14-gauge cold rolled tubular steel front and rear legs are fully welded to two 14-gauge U-channel support brackets for superior strength and durability. The frame support brackets attach to the poly seat shell using four (4) 1/4" steel pop rivets for superior load bearing capacity and tamper proof, higher shear strength shell retention. Four rubber bumpers are attached to the support bracket by 1/4" aluminum rivets. Bumpers provide additional protection to desk top surfaces when chairs are being stored. Poly shell chairs are rated for use up to 250lbs. Frame is available in chrome or platinum finish.

### GLIDE SPECIFICATIONS:

Toe glides provide support on the ends of the frame tubes and include nylon wear caps. Two fixed anti-tip heels with nylon wear caps support the rear of the unit and prevent the anti-tip heel from touching horizontal surfaces.

### COMPLIANCE:

SCS Indoor Advantage Gold certified
