## STEP 1

With Board, Uprights, and Crossbars laid out on a protective surface, slide pieces onto edges of Board until flush. Make sure side holes on Uprights are aligned with threaded inserts on either end of Crossbars.

## STEP 2

With Crossbars and Uprights in position, secure in place with screws (A) and washers (C) inserted through side holes in Uprights. If setting up multiple connected panels insert Plastic Endcaps (E) to exposed ends of Uprights. If setting up individual mobile panel ignore Endcaps and proceed to last step.

### STEP 3

Use Gangers with screws (A) and Lock Nuts (D) to connect display panels together in desired configuration. For radial configuration (see front page) use a total of six of the 120 degree style gangers.

### Single Option

If setting up individual mobile floor panels slide Foot with Casters over bottom of Upright and secure with screw (B).
