VERTICAL SLIDING BOARDS

- New Vertical Sliding Boards create maximum workspace with functional panels that slide vertically, saving time and effort, and allowing you to control your lesson with increased flexibility.
- Available in floor or wall mount units, either surface or recess mounted. Floor mount unit includes kick panel with a 1/2" lightweight substrate available in a variety of finish materials. Call for details.
- Floor mount units include full-length aluminum accessory tray with box corners.
- Panels are precisely counterweighted for silky smooth operation. Made to military specifications (MIL-DTL-7034/4) with solid steel ball bearings and sheaves, the pulley mechanism is an aircraft-quality anti-friction control for the stainless steel cable that connects the counterweights to the panel.
- Full-length pull handles, top and bottom, included.
- Standard units include a 1/2" porcelain steel dry erase markerboard back panel with 3/4" honeycomb core porcelain steel sliding panels, individually counterbalanced for smooth operation. Call for information on other available surfaces.
- Frame is heavy gauge 6063-T5 aluminum alloy extrusion. Corner miters are reinforced with aluminum angles for stability and durability. Frame measures 4"W x 3-5/8"D for one track, 4"W x 6-1/8" for two track, and 4"W x 8-5/8"D for three track.
- SCS Indoor Advantage Gold Certified.
