

# NATURAL CORK SELF-ADHESIVE SKIN

Tackboard Resurfacing Material

- Replace or renew any torn or worn board with Natural Cork Self-Adhesive Skins, made with finely grained natural cork, offering superior resiliency and tack-holding properties.
- Natural cork is an environmentally responsible and renewable resource. Cork is harvested from a cork tree, stripped with careful cuts that do not harm the inner core of the tree. The cork bark regrows, and this process allows a useful life of more than 150 years for each tree.
- Self-adhesive skins feature a ¼" thick layer of natural cork with a peel-and-stick backing to apply easily to an existing board.
- **Caution:** Self-stick adhesive is intended for resurfacing on an existing board surface and has not been tested for use on other materials.
- Ten year limited warranty on natural cork surface material. SCS Indoor Advantage Gold Certified.

## NATURAL CORK TECHNICAL INFORMATION

- Natural cork surface offers excellent resiliency and tack holding properties.
- Cork layer consists of finely grained composition cork produced with .5mm granulated cork and a polyurethane binder.
- Add-Cork has a ⅜" thick layer of natural cork with a ⅞" thick layer of rigid and durable substrate.
- Cork-Plate has a ¼" thick layer of natural cork bonded to a ¼" thick layer of rigid and moisture-resistant substrate.
- Custom sizes are available.
