

## Frequency Tables - X Leg

### OVERVIEW

The Frequency Table is a durable table with many available sizes and customization options, ideal for commercial and educational settings.

### TOP

The top is made of 1 1/8" Particleboard Core with 3mm Flat Vinyl Edge. The work surface is constructed of 45# particleboard core with high pressure laminate (HPL) top surface and phenolic backer sheet for balanced construction. 1 1/8" 3mm flat vinyl is secured to the work surface with glue along the perimeter. Stretcher bars are standard on tops 60" long and longer.

### LEGS

The column is 2-1/4" OD x 13 Ga steel tubing, and is attached to four segments of a cast aluminum base using one 3/8"-16 x 1-5/8" bolt each. The mounting plate is welded to the top of the column and is made of an 8" x 8" x 4 Ga steel plate, or a 12" x 12" x 4 Ga steel plate for larger tables. The base is mounted using twelve #10 screws. The base is 27-3/4" high and comes standard with glides attached by 3/8-16 x 3/4" stems. The base size is dependent on table size and ranges from 20" x 20" to 38-1/4" x 38-1/4".

### LAMINATE AND EDGE BAND

See attached material guide for all options.

### OPTIONS / ACCESSORIES

Table Legs available with casters, glides, or a combination using extended glides.

Optional wire management holes.

Shorter or taller heights are available.

Adjustable height legs are available.
