

PORCELAIN STEEL WHITEBOARD

with Deluxe Aluminum Trim

The whiteboard displays a presentation titled "VECTOR MATH 11/5". It includes a poster for "THE UNIVERSE YOURS TO DISCOVER" featuring a silhouette of a man and a child looking at stars. The presentation defines a vector as "a quantity with magnitude and direction". It shows a diagram of a vector with a blue arrow pointing upwards and to the right, labeled "magnitude" and "direction". Below this, several vectors are shown: \vec{A} , $2\vec{A}$, $\frac{1}{2}\vec{A}$, $-1\cdot\vec{A}$, and $-2\vec{A}$. To the right, there is a section on "Vector addition" with diagrams for adding two vectors ($\vec{A} + \vec{B}$) and three vectors ($\vec{A} + \vec{B} + \vec{C}$). Equations show the commutativity of vector addition: $\vec{A} + \vec{B} + \vec{C} = \vec{B} + \vec{C} + \vec{A} = \vec{A} + \vec{C} + \vec{B}$. A teal hexagonal badge in the bottom right corner says "Ltd Lifetime Warranty".
