

CARE & MAINTENANCE:

Tackboards

Natural Cork Tackboards:

Natural cork tackboards have a fine-grain surface that is durable and resilient. They require care in handling and should be damp cleaned with mild soap and water. Stubborn stains may be removed with fine sandpaper.

Colored Cork (Forbo®) Tackboards:

These fine-grain boards are constructed from pure cork and natural cork pigments, combined under heat and pressure with oxidized linseed oil, allowing the cork to be colored throughout. They are washable with detergents and water. Stubborn stains can be removed with abrasive scouring powder and water.

Vinyl Tackboards:

These boards are covered with tough, durable vinyl with fabric backing. Spots soiled with crayons, glue, or other substances can be cleaned with detergent and water.

Fabric Tackboards:

These boards are covered with a tough, durable fabric that is completely washable and unaffected by most chemicals, acids, alkalis, salts, and cleaning agents (including household bleach).
