HIERARCHY™

by MooreCo

MooreCo designed the Hierarchy line to produce educational furniture that brings an integrated, flexible, and easy to adapt solution to today's active learning environments. Guided by the "Mighty 8" design principles illustrated here, Hierarchy products will provide you with the most usable and flexible furniture for your educational environments.

Color:

Scientific studies have shown color measurably impacts how we feel and how we think. Adding Hierarchy colors in large or small pops can help stimulate creative thinking, or create an air of calmness and focus.

Simplicity:

Learning environments should be inviting and ordered, especially for younger learners. We focused on offering clean, functional lines with all the Hierarchy products to provide fewer distractions and less maintenance.

Comfort:

When you're relaxed, you're more ready to learn. Comfort relates to physical well being, as well as emotional and mental readiness. Hierarchy designs with ergonomics to bring out the best in students.

4

Adjustability:

Learning environments must constantly change to fit the needs of students. Accommodating the comfort preferences of a wide range of users is one of the core principles of Hierarchy design.

8

Engagement:

Learning includes not only the mind but the body as well. When furniture can engage the body with the brain, through gross and fine motor skills, this can result in improved learning habits.

5

Movement:

Research shows movement is linked to learning and retention. Many Hierarchy products allow constant micromovement, fostering a mind open to new information.

7

Collaboration:

Working together is a primary form of learning in today's classroom. Hierarchy is designed for flexible group configurations, large or small.

6

Visibility:

Color provides an easy way to capture a student's attention, the first vital step in learning. Hierarchy allows you to color code important information as a tool to retain knowledge.

“

One of the most significant roles we have as maker educators is to provide the conditions to inspire our students to want to make and create, as opposed to always forcing them to make.”

– Laura Fleming

COMPASS
by MooreCo

By exercising the connection between mind and body, tinkering improves mindfulness, teaches students to trust their intuition, and to problem solve in non-traditional ways.

Suggested Seating Arrangements

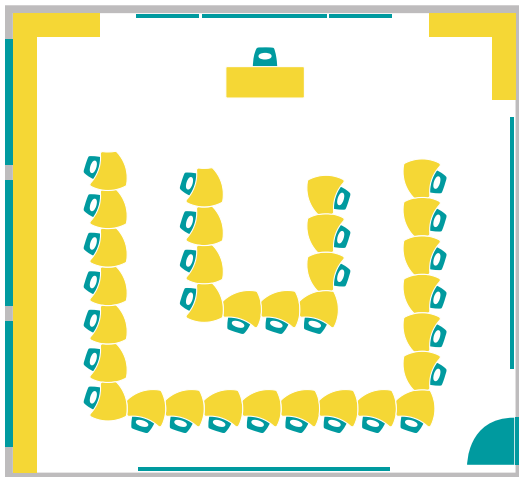

Individual Seating Arrangement: Ideal for testing and other personal learning activities that require concentration. This set up also encourages the most focus on the instructor.

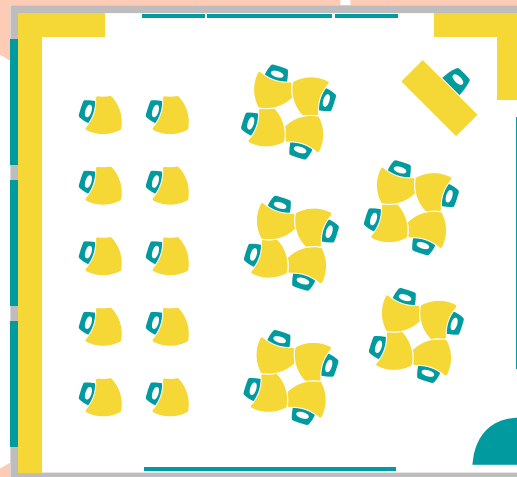

Connected Rows Seating Arrangement: A hybrid of traditional individual seating and pod seating, connected rows divide focus between the instructor and classmates.

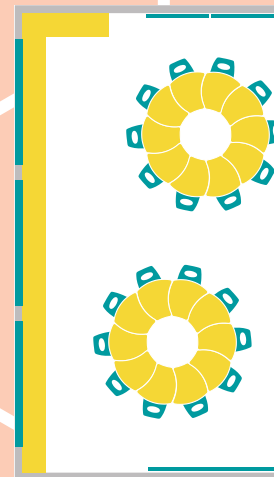

Stadium Seating Arrangement: allows variable heights for equal access to materials while encouraging collaboration.

Horseshoe Seating Arrangement: Provides easy teacher-student access as well as peer-to-peer access, encouraging discussion and participation.

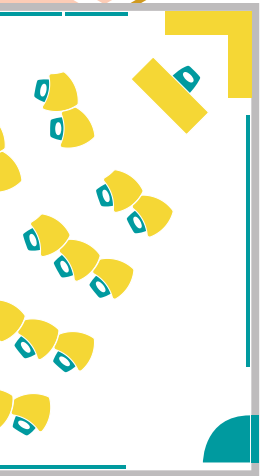

Combination Seating Arrangement: Allows flexible seating for students who work best on their own or with peer support, while allowing the instructor to give one-on-one attention.

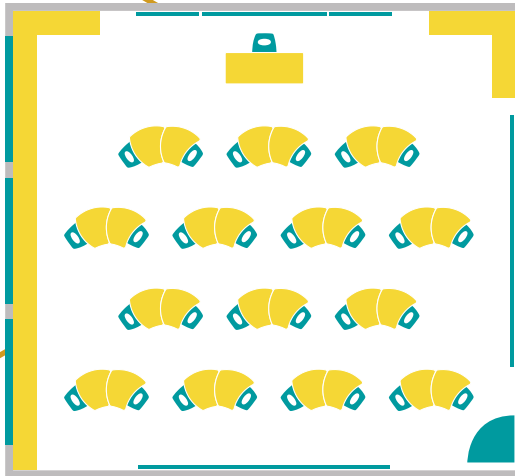

Team Seating Arrangement: encourages collaborations or team-versus-team activities. Encourages teamwork and healthy competition.

gements:

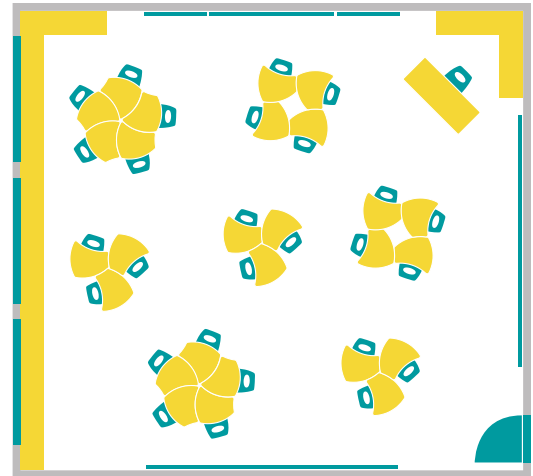

To help ensure you get the most and best use out of your MooreCo furniture, we are providing you with multiple seating plan options to get you started setting up your classroom. Each set up focuses upon a different educational objective, and is designed to be easy to create for instructors and students. Floor plans shown are based on a 1000 square foot classroom.

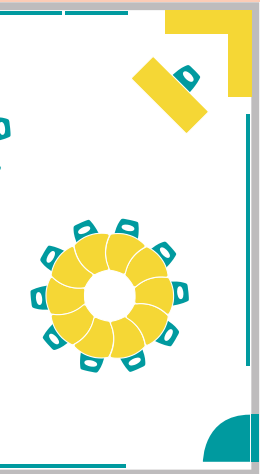

Tiered Seating Arrangement: Creating tiered seating provides clear views of the instructor and encourages classroom communication.

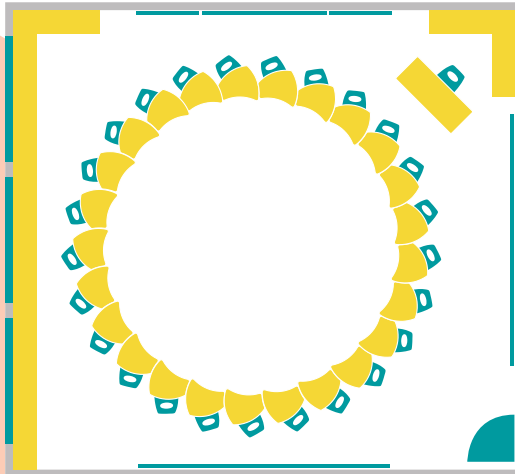

Pair Pod Arrangement: Pairs foster peer support and are great for partnerships between advanced students and those who need a little more encouragement.

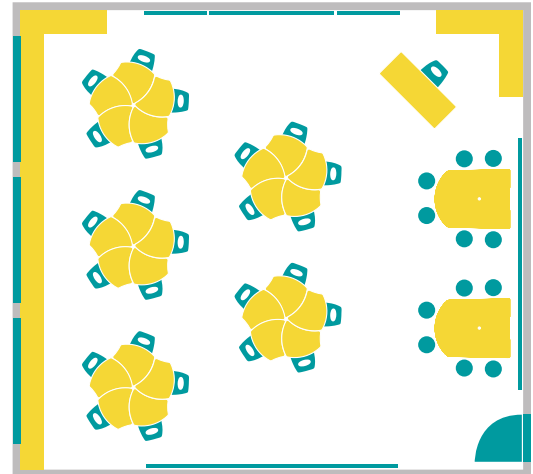

Group Pod Seating Arrangement: Students are encouraged and expected to work with one another. Pod set ups are ideal for small group learning projects and interactions.

Roundtable Seating Arrangement: Ideal for large group team games or matches. Encourages healthy competitive values.

Roundtable Seating Arrangement: Creates maximum interactivity for the entire class and creates a sense of inclusivity, equality, and whole-class dialogue.

Multimedia Seating Arrangement: A designated multimedia space accommodates flexible learning styles, and allows movement of students based on projects or assignments.

“

Technology will never replace great teachers, but technology in the hands of great teachers is transformational.”

– George Couros

Incorporating technology and technology support in your classroom encourages exploration and collaboration by putting the tools for research and learning right at their fingertips. This fosters a sense of accomplishment and self-reliance that adds to participation and satisfaction in the classroom.

The DNA Construct
DeoxyriboNucleic Acid

a thread-like chain of nucleotides, forming a double helix. The strands are called polynucleotides since they are composed of simpler monomer units called nucleotides.

Composed of one of four nitrogen containing nucleobases (cytosine [C], guanine [G], adenine [A] or thymine [T]), a sugar called deoxyribose, and a phosphate group.

“

The task of the modern educator is not to cut down jungles but to irrigate deserts.”

– C. S. Lewis

◀ By incorporating tiered stadium seating arrangements, classrooms can easily accommodate students of various heights and sizes without interfering with sight lines or causing discomfort. Students have clear sight of the instructor and materials, and the teacher is able to establish eye contact with all students.

“

Teachers need other teachers. This is not a job that can be done alone. Collaboration and friendship are vital in keeping teachers sane and happy.”

– Teresa Kwant

Creating an adult-only space for teachers and staff benefits everyone at the school. Teachers who are more relaxed are more able to effectively resolve conflicts in the classroom, collaborate, communicate, and focus on what's most important—teaching.
