Elate Perch Stool

The Elate Perch Stool supports standing desks by providing some leg rest while still encouraging an active position.

- Perching is an ideal way to get weight off your feet without sitting, allowing you to lean, move, twist, and reach as needed.
- The Elate Perch Stool is designed for height adjustability from 24- $\frac{3}{4}$ " to 33- $\frac{3}{4}$ " H and suits any sit-to-stand workstation with dual integrated adjustment buttons on the base that are easy to reach with either hand.
- Features an auto-return tilt feature (10° to the front and 20° to either side) that moves with your body, offering support for multiple positions and activities.
- Seat also swivels for added comfort and support.

SEAT COLOR OPTIONS:

Black

Cayenne

Morning Fog

Endless Sea

Moss

Award-winning and globally-acclaimed designer, Joey Ruitter pushes through the boundaries of the norm to transform everyday objects into products that are just as useful as they are jaw-dropping.

His work ranges from furniture to transportation to household objects and more. In addition to his original studio builds, he works with brands everywhere to bring us products that speak for themselves. His unique perspective, style and approach challenge design principles and lead us to reimagine how we see things and what might be possible after all. In a culture of clutter, he reminds us what is essential. "The art of design happens when you change the way things are perceived. It challenges convention, and creates new stories, interactions and the rarity we want."

Approach: With a minimalistic design approach, Ruitter strips products down to their essence which is where they begin taking shape. He reimagines ordinary things using common themes and creates designs that activate a familiar yet surprising space in us. His disruptive perspective leads to builds that are unconventional, beautiful and anything but ordinary.

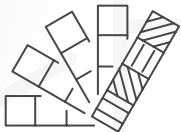

Elate Task Chair

The Elate Task Chair is designed to maximize and customize comfort with fully adjustable, ergonomic, and personalized functionality.

- This intuitive office chair features a revolutionary weight-sensitive tilt mechanism, allowing it to sense each user's body weight and recline accordingly.
- Adjust your task chair easily from 18" to 21"H.
- There are six-position backrest height options for optimal lumbar support, six-position seat depth options, seven-position armrest pads with forward and backward adjustment, and four-position armrest pad adjustment from left to right.
- There is a 21° back tilting angle with three locking positions on the Elate Task Chair for easy lounging.
- The chair frame includes armrests and a 5-star base with five non-marring hard casters for gliding movement.
