

CONSTELLATION

All Foam Soft Seating

MOORECO™

CONSTRUCTION & FEATURES:

- This imaginative collection of sturdy foam floor pads and ottomans is designed to help young students discover different learning positions and shoot for the stars. Foam seating encourages choice and fosters autonomy so students can become agents in their learning.
- Fun, celestial shapes of the sun, moon, stars, and clouds add visual stimulus in unsuspecting ways. Tie shapes to curricular objectives, inspire creative collaboration, elevate story time with imaginative props, associate shapes with calming mindfulness exercises, and organize small breakout groups according to shape.
- Floor cushions (3"H) can be used as seats, back rests, or even work surfaces. Ottomans (18"H) can create tiered seating and offer different classroom perspectives and vantage points.
- Changing seats and adjusting positions periodically results in positive physical effects. Have students move the seat pads to create their own environment, learn about their bodies, and promote autonomy.
- Manufactured with high-density foam. Floor pads come with a zipper cover. Ottomans include a wooden base panel with glides.
- SCS Indoor Advantage Gold Certified.
