

ELATE PERCH STOOL

Sit, stand, perch.

Versatile stool brings your work spaces flexibility and ergonomics.

MOORECO™

ELATE PERCH STOOL

- Designed by award-winning and globally-acclaimed designer Joey Ruiters, the Elate Perch Stool was conceived with a minimalist approach, and built as a flexible, ergonomic, and personal seating option.
- Perching while working is an ideal way to get weight off your feet without sitting, allowing you to lean, move, twist, and reach as needed, all the while promoting circulation, breathing, and the flow of creative energy.
- Pneumatic height adjustable stool (24-3/4" to 33-3/4"H) works with any sit to stand workstation with ease, featuring dual integrated adjustment buttons on the base, easy to reach with either hand.
- Durable and comfortable seat is available in multiple colors to match any space design, and features an auto-return tilt feature (10° to the front and 20° to either side) that moves with your body, offering support for multiple positions and activities. Seat also swivels for added comfort and support.
- Powder-coated platinum steel base is extra wide to offers maximum stability while the stool is in use. Base includes integrated handle and recessed casters to enable easy mobility.
- SCS Indoor Advantage Gold Certified. Patent pending.
